COPY of a Letter from Sir Richard Goodwin Keats, K. B. Rear-Admiral of the Red, to John Wilson Croker, Esq; dated on board His Majesty's Ship the Implacable, in Cadiz Bay, the 30th August 1810.

SIR, *Implacable, Cadiz Bay, Aug. 30, 1810.*

MY Dispatch, No. 15, will have informed their Lordships of the sailing of an Expedition from this Port on the Evening of the 22d; I have now the Honour to transmit the Copy of a Letter I have received from Captain George Cockburne, of this Ship, detailing the Particulars of a Descent and successful Attack made on a strong Corps of French Troops posted at the Town of Moguer. The Expedition returned into Cadiz Yesterday with a few Prisoners and some Volunteers for the Spanish Army, having driven the Enemy from Moguer and the adjoining Coast with considerable Loss, and about Forty killed and wounded on the Part of our Ally.

I have received, Sir, through His Majesty's Minister at this Place, the Copy of a Letter from His Excellency M. de Bardaxi, Secretary of State for Foreign Affairs, strongly expressive of the Sentiments of Satisfaction and Gratitude felt by the Council of Regency at the able and distinguished Co-operation afforded General Lascy on the Expedition by Captain Cockburne, the Officers, and Seamen under his Command; and it becomes my Duty to mark in the strongest Manner how sensibly I feel the public Service has been benefited by Captain Cockburne's able, cheerful, and zealous Services.

I have the Honour to be, &c.

(Signed) R. G. KEATS.

His Majesty's Sloop Jasper, in Huelva River, August 25, 1810.

SIR,

I HAVE the Honour to inform you, that in pursuance to your Orders, I sailed from Cadiz on the Night of the 22d Current, with the Vessels and Boats you were pleased to place under my Command, for the Purpose of co-operating with the Spanish Armament under the Orders of General Lascy. On the Night of the 23d, being about Four Leagues to the Southward of the Entrance of this River, I received Intimation from the General that he wished to land without further Loss of Time

on the Coast then abreast of us, as it would enable him to get to Moguer (where the French Army was supposed to be) considerably sooner than he could do by Water; the whole Fleet being accordingly directed to Anchor as close to the Shore as they could with Safety, I began about Ten o'Clock, to disembark the Troops, and the whole of them, as well as their Horses, &c. being safely landed, between One and Two o'Clock, the General commenced his March, keeping along the Beach, and being attended by Eleven of our Flat Boats, (under Lieutenant Westphal of the Implacable,) for the Purpose of transporting the Army across a large Branch of the River, which (after our Landing) we were informed, intersected the Way to Moguer, and extended a very considerable Distance into the Country. This Precaution having, however, prevented their being delayed in the slightest Degree, the Army got to Moguer (a Distance of Twenty-two Miles from the Point of Debarkation) about Eleven o'Clock Yesterday Morning, and the French Army being there (according to the Information), the Spaniards forgot their Fatigues, and proceeded immediately to attack them. The French not being prepared for such a Visit, were soon driven from the Town; but having collected and rallied in the Neighbourhood, they attempted to regain what they had lost, and in their Turn made several desperate Attacks on the Spanish advanced Line; but being worsted in every Attempt by the Valour and Steadiness of the Spanish Troops; they retreated at the Close of Day, and will, I fear, owing to their being principally Cavalry, succeed in getting to Seville. General Lascy will however, I believe, follow them as long as he sees any Chance of destroying them; and on his Return from pursuing them, will reembark and return to Cadiz, or St. Lucar, as Circumstances may authorize.

The Loss of the Spaniards during Yesterday was but trifling; that of the French has not yet been ascertained; but I saw several of them lying dead on the Field, and about Twelve of them were taken Prisoners, who say they were about Eleven hundred strong.

The Cheerfulness with which the Spanish Troops bore the Fatigue of marching Twenty-two Miles, after being without Rest for Three successive Nights, and the Steadiness and Valour they displayed in the

Action that ensued, has excited my highest Admiration, and made me more sanguine than ever in the Hope, that such People in such a Cause must be ultimately successful. The Inhabitants of this Neighbourhood also shew scarcely less Enthusiasm than the Army come to their Deliverance, and the Manner in which they have greeted our Arrival amongst them sufficiently proves their Attachment to their legitimate Government, and their Detestation of the French Usurpation. I cannot, Sir, close this Account of the Transactions of the Spanish Army without paying my humble but sincere Tribute of Admiration of General Lascy, who has proved himself worthy of commanding such Men, and appears by his Coolness, Judgment, and active Bravery, to be peculiarly adapted for such Services as that on which he is now employed.

It is now, Sir, a pleasant Duty incumbent on me, to assure you that Nothing can exceed the good Conduct of the Officers and Men you have placed under my Orders; and I must beg leave particularly to mention to you the unremitting Assistance I have received from Captain Daniell of this Sloop, and from Lieutenant Westphal (1st of the Implacable), who by his Conduct on this Service has added to the many Claims he already has to my particular Notice and Recommendation.

I have the Honor to be, &c.

(Signed) GEO. COCKBURN.

Admiralty-Office, September 22, 1810.

COPY of a Letter from Captain Sir Home Popham, of His Majesty's Ship the Venerable, addressed to Admiral Lord Gambier, and transmitted by his Lordship to John Wilson Croker, Esq.

His Majesty's Ship Venerable, off the Doaman, Sept. 19th, 1810.

L'ALEXANDRE, a Ketch Privateer, from St. Maloes on her first Cruize, was captured Yesterday Evening by the Venerable, owing to her being very near her on the clearing of a Fog. She is pierced for Sixteen Guns, but had only Four mounted. She had taken the Peggy Schooner of Bristol, off the Land's End, her Crew having previously escaped in their Boat to the Shore, which was the Reason of the Privateer shifting her Station further to the Eastward. The Zenobia joined us during the Chace.

I have the Honor to be, &c.

Admiralty-Office, September 22, 1810.

VICE-ADMIRAL SIR JAMES SAUMAREZ, Bart. and K. B. has transmitted to John Wilson Croker, Esq; a Letter he had received from Rear-Admiral Dixon, with one from Lieutenant Robert Streatfield, of His Majesty's Ship Ruby, reporting the Destruction of Two Danish Armed Vessels off Lessee, by Two Row-Boat Luggers, under the Directions of Lieutenant Streatfield and Lieutenant Stackpoole, of the Ganges, without any Loss on our Part.

Admiralty-Office, September 22, 1810.

THE King having signified to my Lords Commissioners of the Admiralty His Royal Pleasure that those Post Captains of His Majesty's Navy, who, being Commissioners of the Navy, Victualling, or Transport Service, may have been passed over at any Flag Promotion, by Officers junior to themselves being promoted to the Rank of Rear Admirals, shall be allowed to wear the undress Uniform of a Rear Admiral of His Majesty's Fleet, with the Deviations undermentioned, viz.

The Epaulettes to be without the Star of those worn by Rear Admirals, and in all Respects similar to those worn by Post Captains.

The Buttons to contain the Arms of the Navy Office (Three Anchors), or of the Victualling Office (Two Anchors crossed Saltier wise), or of the Transport Office (One Anchor and One Cannon crossed Saltier wise), as the Case may be, respectively surrounded with Laurel.

And also that those Post Captains who may be Commissioners of the Navy, Victualling, or Transport Service, but from their Seniority have not been passed over, shall continue to wear the Uniform of their Rank without any Deviation whatever.

Their Lordships hereby give Notice thereof in order that the Captains abovementioned may conform thereto.

J. BARROW.

Patrick Drummond, Clerk of the Croydon Canal Company.

Croydon, 13th September 1810.

In obedience to the Standing Orders of the Honourable the House of Commons, Notice is hereby given, that an Application is to be made to Parliament, during the ensuing Session, for Leave to bring in a Bill for explaining and amending an Act passed in the Thirty-third Year of His present Majesty's Reign, intituled "An Act for rebuilding the Tron Church of the City of Glasgow; for opening certain Streets; for removing Obstructions in the Troogate Street; for building a Bridge over the River Clyde opposite to the Saltmarket Street, &c." so far as the said Act relates to building a Bridge over the River Clyde from the North Bank of the said River, opposite to Saltmarket Street, in the City and Parish of Glasgow, to the South Bank of the said River, in the Parish of Govan and Barony of Gorbals; and farther, that in the said Bill it is proposed, not to increase the Tolls and Duties leviable under the said Act, or to apply any Part of

the Tolls and Duties leviabie for passing along the two present Bridges, towards defraying the Expence of the intended new Bridge, but merely to make the Tolls and Duties leviabie for passing along the said intended new Bridge, applicabie in the first Instance to the Payment of the Interest of the principal Sum expended in building the new Bridge; in the second Place, to the Payment of the Debt still remaining due on the two present Bridges, until it be reduced to a Sum to be fixed in the Bill; and in the third Place, to the Payment of the Principal of the Debt incurred in building the said new Bridge, and in setting aside a Sum adequate to the Maintenance thereof.

Glasgow, September 7, 1810.

St. Paul, Shadwell.

NOTICE is hereby given, that an Application is intended to be made in the next Session of Parliament, for an Act for taking down and re-building the Church and Tower of the Parish of St. Paul, Shadwell, in the County of Middlesex, and for enlarging the Church-Yard of the said Parish; and also for making a new or additional Church-Yard or Burial-Ground for the Use of the said Parish; and for authorizing and compelling the Purchase and Sale of such Messuages, Lands, and Hereditaments as may be required for enlarging the present Church-Yard, and making such new or additional Church-Yard; and for repealing or altering (if any such Repeal or Alteration should be deemed necessary) an Act passed in the Thirteenth Year of the Reign of King Charles the Second, intituled (inter alia) "An Act for Endowment of a Church at Shadwell;" and for raising Monies by Annuities or otherwise for the several Purposes aforesaid; and for making such Increase or Alteration of the existing Rates, and making such new and other Rates upon the Landlords, Owners, Tenants, and Occupiers of Houses, Lands, Hereditaments, and Premises situate within the said Parish, as may be expedient for defraying the Expences thereof respectively.

W. E. Allen, Solicitor, New Bridge-Street.

Samuel Waller, Solicitor.

Cuckfield, September 18, 1810.

Navy-Office, June 25, 1810.

THE Principal Officers and Commissioners of His Majesty's Navy hereby give Notice, that a Plan of Education has been established, at the Royal Naval College at His Majesty's Dock-Yard at Portsmouth, for a Superior Class of Apprentices to Shipwrights.

That the Number of Students in the Superior Class of Shipwrights' Apprentices shall, in the first Instance, be limited to Twelve, but will gradually be increased to Twenty-five. The period of Apprenticeship shall be Seven Years, but for a Student who may have previously served in the Inferior Class of Apprentices in His Majesty's Yards for the Space of Two Years, it shall be only Six Years, and only Five Years for a Student who may have previously served in the said Class for the Space of Three Years.

An Instructor in the Theory of Naval Architecture will be added to the present Establishment of the Royal Naval College, to assist particularly in the Instruction of this Class of Apprentices.

The Candidates for Admission must produce Certificates from two respectable Physicians or Surgeons that they are of sound Health and Constitution, and likewise Proof from the Register of the Parish in which they were born, of their being at least Fifteen, and not more than Seventeen Years of Age, excepting Candidates from among the Shipwrights.

Apprentices of the Yard, who may be admitted if they shall not have served more than Three Years of their Time. Candidates shall be examined on the first Wednesday in November in each Year, by the Professor of the Royal Naval College, assisted by the Instructor in the Theory of Naval Architecture, in the Presence of the Commissioner of the Yard, the Lieutenant Governor of the College, and Master Shipwright, who shall jointly report the Result of the Examination to the Lords Commissioners of the Admiralty, carefully inserting the Names of the Candidates in Succession according to their respective Merits.

The following shall be the Subjects of Examination, with which every successful Candidate must be perfectly acquainted.

- 1st. Reading English, and writing it with Facility from Dictation.
- 2d. The first Four Rules of Arithmetic, and the Rule of Three in whole Numbers, and also in Vulgar and Decimal Fractions.
- 3d. The first Three Books of Euclid's Elements by R. Simson, with the Exception of Propositions 42, 44, 45, Book I. and of Propositions 8, 9, 10, 11, 14, Book II. In this Part of the Examinations, besides giving the most precise Demonstrations, the Candidates will be expected to make the Constructions in a practical Manner with Compasses and a Ruler.
- 4th. The French Language, a Knowledge of which, although not absolutely required in the Candidates who may present themselves at the first Examination which is to be held, will nevertheless give a Preference to those, who are in all other Respects equally qualified; at all subsequent Examinations, however, the Candidates will be required to read and translate French with Facility.

After Admission into the Superior Class, the Apprentices shall attend at the Royal Naval College Three or Four Hours on the Mornings of every Day in the Week, except Sunday and the established Holidays, where they shall be instructed in such Parts of the following Subjects as shall appear to the Professor of the College to be best adapted to the Object of the Establishment, viz. the Formation of able and useful Ship Builders :

Geometry	Fluxions
Algebra	Theory of Naval Architecture
Plane Trigonometry	Architecture
Mechanics	Drawing
Hydrostatics	The French Language.

On Mondays, Tuesdays, and Wednesdays, the Apprentices shall be employed at the College during the Hours above-mentioned, in the Study of Mathematics, under the Professor or the Instructor; on Thursday and Friday Mornings in Drawing, under the Drawing Master, the Art of Perspective being most particularly applied in drawing the different Parts of a Ship; and the Morning of Saturday shall be appropriated to the Study of such Books and Exercises in the French Language, under the French Master, as may perfect them therein, and at the same Time advance their professional Knowledge. This Division of Time allotted for their Studies, is, however, to be subject to such Alterations as shall appear to the Professor best calculated for promoting the Object of the Institution.

In the remaining Part of the Day, when not attending at the College, they shall be employed under the Master Shipwright or Instructor of Naval Architecture, in the Mould Loft, in the various Kinds of manual Labour connected with Ship-building; in the Acquirement of a complete Knowledge of the different Parts of a Ship, and of the Method of constructing and fastening the same, as well as in discriminating her different Properties deducible from theoretical Calculations; also in the Management and Conversion of Timber, and generally, in such other Manner as the Master Shipwright may consider as best adapted to make them fully acquainted with all the Detail of the Duties of a practical Shipwright.

To ensure the Punishment of Offences committed by them during their Attendance at the College, a Book shall be kept by the Instructor, in which such Offences shall be entered; and at the End of each Week, or oftener if there be Occasion, this Book shall be sent to the Office of the Commissioner, who will order such Punishment to be inflicted, as may be conformable to the usual Treatment of Apprentices in the Dock-Yard.

And at the End of each Year, a Public Examination shall take place, in the Presence of the Officers mentioned in the 3d Article, and a general Statement of the Improvement of the respective Apprentices in the theoretical Part of their Profession, shall be transmitted by the Professor of the College, and of their Progress in the practical Part by the Master Shipwright, through the Commissioner of the Dock-Yard, to the Admiralty-Office; to the End that, if it shall appear that an Apprentice has particularly distinguished himself in any of the Departments of his Profession, the Lords Commissioners of the Admiralty may confer on him such Mark of their Approbation, as their Lordships may deem expedient.

The last Year of their Apprenticeship, or such Part thereof as the Lords Commissioners of the Admiralty may think proper, shall be served at Sea, in such of His Majesty's Ships as their Lordships shall direct, with a view of obtaining some practical Knowledge in the steering, sailing, trimming, and ballasting of a Ship, in making Remarks on the Motion and working of a Ship, in all her Parts, in bad Weather, and on a high Sea, the standing and straining of the Masts and Yards under such Circumstances, the placing of the fixed Blocks, with a view to the proper leading of Ropes, &c. and, generally, in obtaining such Information, as the Captain, Carpenter, and other Officers of the Ship may, by their Experience, communicate, and such as their own Observations may suggest.

During the Time that such an Apprentice shall be on board a Ship, he will be required to keep a Journal of his Remarks and Observations, arranged under distinct Heads, noting such Improvements in any Part of the Ship, or any Thing connected therewith, as may suggest themselves to him, from a minute Attention to the Circumstances by which a Ship is affected at Sea; a Copy of which Journal is to be transmitted to the Admiralty.

A Cabin or Berth will be allotted to him in the Gun-Room, or in some other suitable Part of the Ship; he shall mess with some of the Officers, and be treated in all respects as a Gentleman.

Salaries to be allowed Apprentices of the Superior Class.

If the Apprentice shall not have served Two Years in the Inferior Class.	If the Apprentice shall have served Two Years in that Class.	If the Apprentice shall have served Three Years in that Class.	Sum.
1st Year			60
2d Year	1st Year		70
3d Year	2d Year	1st Year	80
4th Year	3d Year	2d Year	90
5th Year	4th Year	3d Year	100
6th Year	5th Year	4th Year	110
7th Year	6th Year	5th Year	130

Upon their Return from Sea, until they can be appointed Officers in consequence of Vacancies having occurred, they shall be employed as Overseers of Ships building, in assisting the Master Shipwright in the different Yards, and their Assistants or Foremen; in the Mould Loft, under the Timber Master, or in any other Situation in which the Master Shipwright may have Occasion to employ them, with the Approbation of the Commissioner; during that Interval they shall have 150l. per Annum, and if such Vacancies should not happen for Three Years after their Return, they shall then have 180l. per Annum until they be provided for.

In order that the Services of young Men, whose Education has been obtained at a considerable Expence to Government, may not be lost on the Expiration of their Apprenticeship, they shall each of them, previously to their Entry in the Yard, be required to find two Sureties, to enter into Bond to the Amount of 500l. subjecting them to the Forfeiture of the said Sum if the Apprentices shall leave His Majesty's Service within Ten Years after they are out of their Time; and in the Event of an Apprentice being discharged for Misconduct, the Amount of the Bond, or so much of it as may indemnify Government for the Expence incurred in his Education, shall be forfeited.

The Object of this Institution is to improve the Qualifications of the Shipwrights in the Dock-Yards, and thereby to ensure a Succession of Artificers, from among whom Officers of the Description of Master Measurers, Foremen, &c. will be selected, and from those the Appointments of the superior Officers in His Majesty's Dock-Yards, and Surveyors of the Navy, will ultimately be made.

The Day of Examination is fixed for the First Wednesday in November next (7th November 1810). A certain Number of Apprentices now in the Dock-Yards are to be excused from manual Labour, to prepare themselves for the Examination; and this public Notice of the Qualifications expected from those who intend to become Candidates, and of the Day on which such Candidates will be examined, is given, in order that the Number to be entered in the Superior Class of Apprentices (which in the First Year is to be limited to Twelve) may be selected from those best qualified, whether belonging to the Dock Yard or not.

Such Persons of the Description before mentioned, who may be desirous of becoming Candidates for Admission to the Superior Class of apprentices to belong to His Majesty's Dock-Yard at Portsmouth, are therefore hereby informed, that they will be required to send Notice of their Intention to the Navy Board, or the Commissioner of His Majesty's Dock Yard at Port-

smouth, on the 24th of October 1810, and they must be prepared with every Document and Qualification mentioned in this Advertisement, and be at Portsmouth Dock-Yard at Eight o'Clock on the Morning of the Day of Examination, viz. 7th November 1810, and wait for further Directions from the Commissioner for their Proceedings.
