Description of Sandy Point Lights.

WITH reference to Notice to Mariners, No. 114, of 30th August, 1877, on the alteration in Sandy Point Light, and intended establishment of a red light:—

The Chilean Government has given further information, namely:—

The white light, exhibited from the round tower of the block-house, and 36 feet above the ground, is a fixed white light of the sixth order. The light is elevated 74 feet above the sea, and should be visible in clear weather, between the bearings of $N. 19^{\circ} W.$ (through west) and $S. 2^{\circ} W.$, from a distance of 10 miles.

The red light, exhibited since 1st July, 1877, indicates the anchorage-ground in Sandy Point Road. It is a fixed red light, elevated 69 feet above the sea, and should be visible in clear weather from a distance of 3 miles. This light, exhibited from a wooden cupola, 29 feet high, painted white, and supported on two uprights, is situated about 20 feet westward of the battery flagstaff.

The white cupola serves as a day-mark instead of the battery flagstaff.

NOTE.—Vessels approaching Sandy Point from the northward should not steer for the anchorage until the white light bears northward of $W. \frac{1}{4} N.$, when a $W.S.W.$ course may be steered till the red light is seen, then bring the two lights in line and anchor as convenient in from 10 to 5 fathoms. Approaching the anchorage from the southward, the white light should be kept well on the port bow until the red light becomes visible, when the two lights should be brought in line and anchorage taken up as above directed.

[The bearings are magnetic. Variations $21\frac{1}{2}^{\circ}$ Easterly in 1877.]

Fredk. J. Evans, Hydrographer.

In the event of the receipt of Tenders (at or above the minimum price to be fixed by the Secretary of State for India in Council on the 9th October) for a larger amount than that proposed to be raised, the Tenders at the lowest price accepted will be subject to a pro rata diminution. No allotment will be made of a less amount than £500.
